TECHNICAL DATA SHEET
CF729 SILICONE SPONGE

A uniform closed cell sponge, with excellent release characteristics and resistance to the effects of sunlight, moisture oxidation and many chemicals. It seals against heat, dust, smoke and most liquids. It is also self-extinguishing.

Temperature Range	-60°F (-51°C) to +450°F (+232°C)
Water Absorption	Less than 5%
Compression Set	30% Maximum
Density (Medium)	to AMS 3195B
Compression/Deflection (PSI)	6-14
Colour	White
